

# Daily Scale Routine

Here's a quick and easy way to get through all of your scales each week—you'll have them fluid and memorized before you know it!

**Beginners:** Start with 2 major scales (the uppercase letters) each day, and play one octave in quarter notes.

**Intermediate:** Play 2 major and 2 minor scales each day two octaves in eighth notes.

**Advanced:** Play 2 major and 2 minor scales each day up to three octaves in sixteenth notes.

Mon: Pink Tue: Gray Wed: Blue Thur: Tan Fri: Orange Sat: Green

## Articulation Patterns

Use these articulation patterns with each of your scales for the day. Don't forget to turn on the metronome!

*Weekly Scale Tracker*

When you complete a scale for the day, mark down the tempo. Do this for each of your scales, and then do the same thing tomorrow on tomorrow's scales. Next week, your goal should be to improve your tempo on all the scales.
